

Istanbul Financial Center: Timeless Meeting Point for Tomorrow

As global financial institutions continue to seek stability, connectivity, and long term growth, Istanbul Financial Center (IFC) offers a strategic platform where these priorities converge.

Developed under the strategic leadership and coordination of the Türkiye Wealth Fund, IFC is designed to strengthen Türkiye's role in the global financial system by providing an integrated ecosystem for international finance. Built on a dedicated legal framework, an integrated institutional ecosystem, and world-class infrastructure, IFC enables institutions to operate efficiently while expanding their regional and global reach.

Positioned at the crossroads of Europe, the Middle East, Central Asia, and Africa, Istanbul offers direct access to markets representing nearly 40% of global trade and more than 1.5 billion people within a few hours' flight. This unique location allows businesses to engage with multiple regions from a single strategic base.

Built as a smart city, IFC features over 1.3 million square metres of Grade A office space alongside a shopping center with more than 300 retail units, complemented by hospitality and lifestyle amenities that create a dynamic environment for business and collaboration. Through its integrated One Stop Shop model, comprehensive legal framework, and investor focused approach, IFC simplifies operations while supporting sustainable long term growth.

As its ecosystem continues to evolve, Istanbul Financial Center is becoming a trusted meeting point for global finance, bringing together financial institutions, investors, multinational companies, and innovators in an environment designed to foster collaboration, innovation, and sustainable growth.
